

Mini Moisture Meter

Easy to use and very portable, the mini moisture meter will read moisture levels on plaster, concrete mortar or wood.

Additional Information

- LCD digital display of moisture & temperature
- Reads both temperature & moisture using integral electrode Pins
- User selectable wood moisture, building material moisture, Centigrade or Fahrenheit
- Auto power off to prolong battery life
- Ideal for checking if logs for firewood have more than 20% moisture before burning. CE & UKCA compliant.
