

Aluminium Pipe Wrench 350mm

A heavy-duty self-adjusting pipe wrench, measuring 350mm long, manufactured from aluminium with steel hardened jaws. The serrated teeth offer a firm grip on a wide variety of different shaped and even damaged fixings from 20 to 48mm in diameter.

Additional Information

- Simple spring-loaded adjuster allows jaws to be quickly adjust in a single-handed operation.
- Length: 350mm (14").
- Jaw capacity range: 20mm - 48mm.
- Aluminium handle reduces tool weight by nearly 40% in comparison to similar, cast iron models.
- Tough, hardened steel jaws for strength & durability.
