

Metal & Woodworking File Set 9pc

A variety of engineer and rasp hand files, for working with metal and wood, together with a file cleaning brush for removing debris from the file face after use. Each of the files are manufactured from T12 steel, which features a high carbon content providing better wear resistance and hardness, with soft grip handles for comfort, together with a hanging hole for convenient storage.

Additional Information

- 5x 200mm engineers' files for metal work: flat, half-round, round, triangle & square profiles.
- 3x rasp files for woodwork: flat, half-round & round profiles.
- 1x file cleaning brush.
- Manufactured from T12 steel with Polypropylene (PP) & Thermoplastic rubber (TPR) soft grip handles. Supplied in a nylon tool roll organiser.
- A set of engineer & needle hand files, suitable for use on wood, also available. Please see Part No. 56153.
